Ordering Information

To Place Your Order

Please provide a purchase order number, billing and shipping instructions, terms, product catalog number and description and pricing to:

Customer Service if calling from within the U.S.

Customer Support

If you encounter a problem or need technical assistance, contact your CONMED Sales Representative or Customer Service. Refer to the Customer Service telephone numbers listed below.

Customer Service (Within U.S.)

Telephone: (800) 448-6506

Fax: (800) 438-3051

CONMED International Customer Service

Telephone: (315) 797-8375

Fax: (315) 735-6235

Terms and Conditions

All ConMed products are manufactured and produced in compliance with the following quality system standards:

21CFR 820, US FDA Quality System Regulation

CMDCAS

ISO13485

European MDD, Annex II and V

All Products may not be available for sale in your region. For information on pricing and product availability, please contact your local ConMed representative

All prices and specifications are subject to change without notice. All prices are F.O.F. Utica, New York; Centennial, Colorado; Atlanta, Georgia (F.O.B. Drop Shipment Points where applicable).

CREDIT TERMS: Net 30

Return Goods Policy

All CONMED products, except products that are obsolete, discontinued, or damaged and specialty products, may be returned within 60 days after date of purchase for credit subject to the following:

1. A copy of the invoice number and date of purchase and a Return Authorization Number must accompany the returned goods with the reason for the return stated in writing. Contact CONMED Customer Service for the Return Authorization Number at 1-800-448-6506.
2. All returned goods would be subject to a minimum of 15% restocking charge. The exact amount of credit to be given, if any, will be determined by a Quality Assurance inspection. Sterile packaged products may be returned for credit only if returned in the original, unopened shelf package.
3. If the return is due to our error in shipping, full credit will be given.
4. All returns should be addressed as indicated by Return Authorization.

Mission Statement

Our mission is to improve the quality of healthcare by designing, producing, and marketing innovative, high-quality products.

Our emphasis is on patient safety, customer satisfaction, and sustained growth of shareholder equity.

In pursuit of our goals, we strive to demonstrate thoughtful leadership, provide meaningful opportunities for employees, and be a responsible member of the global and local communities in which we conduct business.

Quality Policy

"ConMed is committed to providing safe and effective products and services that meet the needs of our patients, customers and company stakeholders."

– Joseph Corasanti
CEO, President

Disposable Bladed/Shielded Trocars

- Offers You Unique Solutions to Saving Money
- Provides the Savings with Procedure Based Pricing
- Offers High-performance Laparoscopic Tools – At Your Fingertips
- Is an exclusive program from ConMed EndoSurgery

Unique Solutions to Saving Money

Provides the Savings:

EndoCap™'s Procedural price may save you as much as 20% Vs. the leading competitor's procedural price. EndoCap gives you procedural savings that can make a big difference in meeting your budgetary goals.

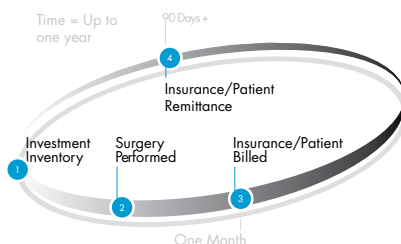

Program Benefits:

- **Bills Per Procedure at a Set Price** for any or all of your ConMed EndoSurgical products.
- Customized instrument sets and procedural billing pricing to meet your specific surgical needs!
- ConMed manages Product Inventory, PAR Levels, Replenishment orders, and guarantees supply for every procedure utilizing EndoCap™.
- Shipping and Delivery are **No Charge**.
- Fewer product codes to manage in the O.R.
- Reduces costs associated with multiple purchase orders for various product codes through the month.
- No acquisition costs for initial inventory.
- Eliminates up-front capital investment and carrying cost.
- Facilities pay for supplies after they are used.
- Aligns payment of invoices with revenues from surgery previously performed.
- Standard terms allow for payment up to 90 days following surgery already performed.
- Unlike consignment programs, EndoCap™ is based on procedures, not inventory.

The EndoCap Financial Shift:

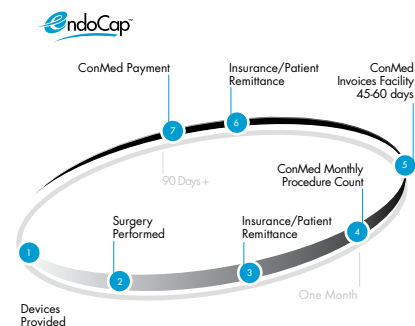

The Traditional Method

Traditionally, devices have been purchased prior to performing surgery. The facility therefore has valuable capital tied up in inventory and does not recover the investment until after surgery is performed. Financially, the facility operates in the "RED" until remittance is received.

The EndoCap™ Supply Solution

EndoCap™ allows facilities to eliminate the up-front capital investment and pay for the use of the supplies after they are used. Alignment of the receivables and payables allows the facility to operate in the "BLACK".

 is an exclusive program from ConMed EndoSurgery.

EndoCap™ Offers High-Performance Laparoscopic Tools – At Your Fingertips

■ EndoCap Financial Modeling

- ConMed has developed a powerful cost analysis program we call Mascot. (Minimal Access Surgery – Cost Outline Tool)

ConMed helps model what you currently pay for like products per procedure proving any cost savings.

ConMed outlines the impact of EndoCap procedural savings and sales on your current budget.

ConMed outlines the impact that these purchases may have on other ConMed programs such as Partnership Rewards™ and Incentive Growth Rebates™.

ConMed communicates this data easily in a straightforward Executive Summary.

■ Procedural Pricing

- EndoCap Procedural Pricing can be easily be developed in a customized way for every account:

- Many pricing options are available including:

Per procedure pricing by individual procedure such as Lap. Chole.

Per procedure pricing by surgical specialty such as GYN, GS, or Diagnostic

Per procedure pricing by Dr.

- Whatever the mix of Drs., Procedures, or Products, EndoCap can develop a cost savings solution for you!

■ EndoCap – C

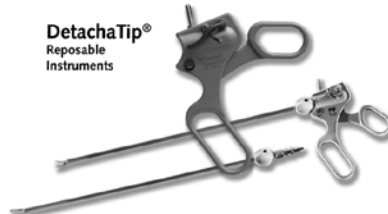

- EndoCap – C is an alternative EndoCap™ program.

Products are stocked each month and billed in one P.O. at the end of the month.

Billing is set up on a per product basis by product code and not by procedure.

Eliminates acquisition costs, shipping costs, and cost associated with excess P.O.'s.
