Our job is to help you do yours. **Capsa Healthcare** is built upon a 60-year foundation of experience and innovation designed to improve the organization, efficiency, and accuracy of healthcare providers. We strive to elevate patient care by offering innovative solutions that positively impact clinical efficiency in healthcare environments. We understand the delivery of healthcare cannot wait, which is why we continually invest in product development, technology innovation, service, and support to make sure we are the logical choice for products that elevate the performance of healthcare delivery at the point-of-care.

Capsa Healthcare provides a broad portfolio of mobile computer carts, virtual care and patient experience carts, and wall mount workstations designed to optimize your health IT program. With reliable performance and simple serviceability, Capsa's mobility solutions enhance user experience and support better patient care.

Computing Workstations

The Trio Computing Workstation combines innovative advancements with flexibility to meet the needs of clinical users today and into the future.

NEW! The Trio line of computing workstations has expanded to support a wider range of mobile computing requirements. Trio LT is a powered computing workstation that offers all the essential features and proven power flexibility you want in a modern workstation. Trio NP, a non-powered workstation, supports simple care applications or workflows that do not require continuous power.

- Slim profile, improved mobility and enhanced features
- Trio and Trio LT feature the GoLife hybrid power system for extended mobile runtime
- Configurable with an array of drawer and bin options
- N-Sight™ Fleet Management software with enhanced user management tools comes standard with the full-featured Trio workstation

Personal Ergonomics

Personally adjustable for optimal user comfort including memory presets

Thoughtful Tools

Control center provides simple touch screen navigation to informative tools

N-Sight™ Fleet Management

Mobile Nurse Workstations

CareLink Nurse Workstations elevate mobile computing to the next level, with improved communications, N-Stride™ steer assist, and N-Sight™ proactive cart fleet management. CareLink provides ergonomic features and workflow solutions that will simplify the rigorous day-to-day tasks associated with providing patient care.

- Two-position front handle and rear handles for easy maneuvering
- Keyboard, work surface, and ground lights for working in darkened rooms
- Fully configurable storage and organization
- Smooth non-porous surfaces for easy cleaning and durability
- API available for integration with Single Sign-On or other apps

Intelligent Platform

N-Sight™ remote fleet management with no software to install or maintain

Easier to Move

N-Stride™ steer assist and 5" casters promote easy maneuverability and control

Saves Time

Fleet Management

N-Sight™

N-Sight facilitates asset utilization through optimizing fleet deployment and maximizing the uptime and availability of carts (*Trio & CareLink only*).

▼ **N-Sight™** helps you monitor your fleet.

Optimize Your Fleet

N-Sight helps facilities improve asset utilization, maximize fleet performance and value, and help prevent issues before they impact clinical workflow. The cloud-based N-Sight software features analytics to support optimized fleet utilization and simplified user management tools.

Robust Cloud Solution

N-Sight is a cloud based platform with no client software to install on facility desktop workstations or cart-based computers.

Maximize Uptime and Availability

Maintain cart availability while proactively monitoring cart fleet power levels and performance. Analytics provide visibility into power usage and allow adjustments to technology settings to maximize cart runtime.

Right-Size Fleet

Evaluate cart usage patterns and peak needs to determine if the number of carts deployed meet current clinical demands. Identify opportunities to redeploy carts to locations with greater needs, optimizing asset utilization.

Remote Fleet Management

N-Sight enables remote management of cart user groups, PIN codes, and user permissions. Save time finding lost carts with cart locator*, based on the last wireless access point.

Configuration Settings

Centralized management of cart configurations for displays & alerts, PINs, notifications and service requests.

Integration with Hospital Systems

To facilitate communication between clinicians, IT, and other hospital departments, N-Sight offers integration with hospital systems that can accept email/SNTP input.

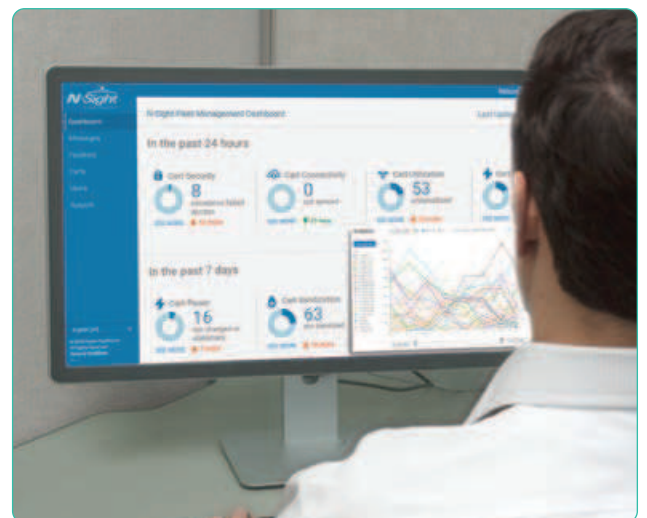

**Cart Locator available with Trio*

Medication Workstations

The MedLink Cart is a medication management solution that ensures safe, accurate medication administration. It's specifically designed to reduce human error, keep patients safe, and create a closed-loop medication system using lockable drawers and patient wristband scanning. This ensures each patient receives the correct medication while allowing caregivers to focus on patient care.

- AutoFit™ Technology offers ease of adjustment for each user with combined adjustment for the work surface, keyboard, and display
- 20" (50.8 cm) height range ensures comfortable ergonomic accommodation for seated and standing caregivers
- Power Track™ steering enables caregivers to easily maneuver in tight spaces and corridors
- Modular drawer design allows customizable layout and drawer sizes to meet workflow demands
- RFID technology assists in locating each patient drawer – to cart, cassette, caregiver

AutoFit™ Technology

Ease of adjustment for each user in a shared work environment control

Power Track™ Steering

Easily maneuver in tight spaces or corridors

MedLink™ Pro Software

MedLink Pro, the next generation in medication management software, retrieves and displays patient data, and aids in the secure delivery of medication by healthcare professionals to promote patient safety. MedLink Pro is expertly designed to reduce human error and supports a closed-loop medication system.

- Drawers can be assigned to an individual patient through electronic labeling
- HL7 integration allows patient labels to be selected from the existing hospital patient list rather than manual entry
- RFID-embedded technology assists in locating each patient drawer — to the specific cart, cassette and caregiver
- Assigned drawers can be opened automatically by scanning a patient wristband barcode
- Integrates with Microsoft Active Directory

See page 34 for storage drawer options

Tryten S1 Tablet Cart

Monitor and Tablet Carts

The **Tryten S1 Tablet Cart** is an ideal solution for those requiring an ergonomic, height-adjustable, mobility solution for iPads and tablets. With a locking, universal tablet mount, articulating arm, and weighted base, the S1 can securely hold a wide range of devices making it a versatile option for facilities.

The cart's design helps reduce strain on healthcare workers and the small footprint ensures it can fit in tight spaces. The Tryten S1 tablet cart optimizes healthcare workflow and improves patient care.

- Patented, articulating arm provides a height-adjustable, ergonomic user experience
- Universal mounting with the 360° rotating, size-adjustable, locking OmniTab tablet mount
- Concealed cable management enables safe, secure operation and easy cleaning
- Large, height-adjustable utility box provides power points for plugging in devices
- VESA mount available for securely attaching a monitor
- IEC 60601 tested for tip resistance

Ergonomic Design

The adjustable height and angle of the tablet make it comfortable to use in any position

Modular Design

Customize your cart to your exact needs with over 40 peripheral and accessory options

Small Footprint

Compact profile takes up minimal floor space

S1

Tryten S2 Tablet Cart

Monitor and Tablet Carts

The **Tryten S2 Tablet Cart** is an ideal solution for healthcare environments in need of a versatile and secure way to use their tablet devices. The simple construction and small weighted base make it easy to set up and move as needed.

The secure, locking mount supports a wide variety of tablets and iPads, and accommodates a range of practical applications. The small footprint makes it easy to use in tight spaces, such as patient rooms or small exam rooms.

- Tilting tablet bracket pans 180° and rotates 360° for optimal tablet viewing
- Lockable holder fits tablet up to 12.95" and 3.5 lbs
- Compatible with Apple iPad Air, Pro 11" or 12.9", Microsoft Surface/Pro, Samsung Galaxy, Google Pixel, and others
- Available in a VESA mount configuration to securely support a monitor
- Concealed cable management for safe, secure operation and easy cleaning

Tablet Tilt

Position your tablet at various angles for ease of use

Universal Tablet Bracket

Mount and lock tablets and iPads up to 12.95" with or without a case

Concealed Cable Management

Cable channel allows for discreet routing cables between devices and utility box

S2

Tryten S5 Monitor Cart

Monitor and Tablet Carts

The **Tryten S5 Monitor Mount Cart** is an ideal solution for healthcare facilities seeking to enhance their telehealth services and virtual patient observation. The cart's VESA mount and extended height provide flexibility for multiple viewing angles, while a variety of accessory and peripheral options enable customization for a range of applications. The small, sturdy base takes up minimal floorspace, making it an excellent fit for any hospital room.

- Extra tall frame provides pole extension to increase height up to 68.7"
- Accommodates tablets or VESA mounted monitors up to 22"
- Compatible with all major apps, medical peripherals, and tablets
- Height-adjustable utility box and a cord wrap keep cables and power cords neatly stowed
- IEC 60601 tested for tip resistance

Extra Tall Frame

Provides fuller view of patients and more space to attach accessories

Modular Design

Accessory and peripheral options enable customization for a range of applications

Small Sturdy Base

Weighted 17.7" x 17.9" base supports up to 24 lbs of peripherals and accessories

S5

Tryten X1 Monitor Cart

Monitor and Tablet Carts

The **Tryten X1 Monitor Cart** is an excellent solution for healthcare facilities looking to incorporate larger monitors and video-based services into their hospital rooms and surgery centers. Its VESA mount and extended height allow for easy and secure mounting of larger screens, while its large sturdy base and locking casters reduce the risk of tipping.

- Accessory and peripheral options offer flexibility to support a range of healthcare applications
- 72" pole height positions camera and monitor above room clutter for optimal viewing
- Securely supports tablets or up to a 32" flat screen monitor
- Concealed cable management enables safe, secure operation and easy cleaning
- Large, height-adjustable utility box provides power points device plug-in
- 22"x20" base IEC 60601 tested for tip resistance

Flexible Device Mounts

Easy and secure mounting of larger screens

Adaptable Platform

Accessories and peripheral options support wide range of care applications

Sturdy Base

Offers stability to support larger monitors, accessories and peripherals

Choose from an array of accessories to facilitate workflow

Computing Cart

The LX5 Laptop Cart offers a lightweight, non-powered design to accommodate your choice of laptop computer and the flexibility to configure with optional storage. The LX5 promotes simplicity and value to help lower the total cost of mobilizing health IT software.

- Accommodates widescreen laptops up to 17"
- Ergonomic adjustability is simple with LiftAssist™ height adjustment
- Laptop anti-theft security bridle
- Small footprint, slim profile, and super-lightweight
- Flexibility to configure with storage drawers including 3" or 6" depth

LX5

The M40 Computing Cart offers light-weight construction and compact ergonomic design for mobile documentation needs. The laptop enclosure provides a large work surface area and secure technology storage.

- Oversized 20" wide x 11" deep work surface
- Work Surface has a 16" range of adjustable height
- 19" x 21" compact base for easy maneuvering in patient areas and tight spaces
- Accommodates up to 17" notebook and tablet PCs
- Contoured handles minimize strain when pushing
- Integrated keyboard light with auto shut-off feature for nighttime use

M40

V6™ Wall Station

Wall Mounted Workstations

The **V6 Technology Wall Station** combines exceptional space-savings with ergonomic design for comfortable caregiver computer use, whether seated or standing.

A range of ergonomic adjustments allows caregivers to easily position for a healthy computing experience and facilitates their engagement with patients.

- Flexible monitor arms ensure technology never gets in the way of patient-caregiver interactions
- Easily customizable with numerous monitor and keyboard arm lengths
- Choose an accessory mount or rail to support peripheral shelves and mounts for gloves, wipes, and other common items
- Features a sleek, sustainable aluminum design, neutral color palette, and streamlined aesthetic
- Cable management system and wipe-clean finish are designed for easy cleaning to ensure effective infection control

Adjustable

Flexible monitor arms facilitate patient-caregiver interactions

AX Series Arm

Monitor Arms

The AX Series Arm lets you select the combination of components to build your ideal health IT workstation. When price and value matter most, the AX Series provides improved ease-of-use and ensures an efficient EHR process at the point-of-care.

AX Series Arm

With Monitor Extender

AX Series Arm

With Keyboard Extender

General Specifications:

- Standard VESA 75mm, 100mm
- 90° range of articulating arm motion provides 12" of vertical monitor adjustment
- 180° range of lateral motion
- Monitor or keyboard tray tilt in 90° positive or 20° negative direction
- Slim profile under 8" when stowed

Optional Accessories:

- 18" Extender Arm (not available with 16" wall track)
- 20" x 11.5" work surface
- Rotation limiter

- Provides effortless use through a flexible range of motion, while supporting patient interaction at the bedside
- Independent vertical keyboard adjustment allows variable space between hand position and monitor
- Fully configurable with articulating and optional fixed arm components
- Lightweight aluminum with hardened finish withstands the rigors of healthcare environments
- Slim profile when stowed for care settings that require compact and functional workstations

AX Series Arm

Fluid™ Wall Arms

Wall Mounted Workstation

The Fluid Wall Arms are designed to provide maximum stability, flexibility, and functionality for clinical documentation and patient interaction in any healthcare environment. The Fluid ULT arm supports a total weight capacity up to 20 pounds, while the Fluid UHD supports up to 35 pounds.

Easy to Organize

Expansive work surface with left/right mouse surface and enclosed keyboard storage

Maximum Extension

Optional extension arm provides up to 62" of reach that allows closer patient engagement

Easy to Adjust

22" in vertical arm adjustment with 180° independent monitor and keyboard rotation

- Independent monitor and keyboard rotation of 180°
- 22" in vertical arm adjustment with increased lower range supports seated or standing patient interactions
- For maximum extension, an optional extension arm to provide 62" of reach into care environment
- Slim profile under 9.5" when stored to maximize space
- Allow for mounting onto previously installed industry compatible tracks or supplied 34" track

Fluid™ ULT Arm

General Specifications:

- **Monitor mount standards:** VESA 75mm, 100mm
- **Keyboard pivot range:** 180°
- **Monitor rotation range:** 180°
- **Monitor tilt range:** >40° (101.6 cm)
- **Vertical monitor adjust:** 9.5" (24.13 cm)
- **Vertical arm adjust:** 22" (55.88 cm)
- **Weight capacity:** ULT up to 20 lbs (9.07 kg)
UHD up to 35 lbs (15.87 kg)
- **Work surface size:** 11.25" x 22"
(28.57 x 55.88 cm)
- **Mouse surface size:** 8.5" x 9.65" Left/Right
(21.59 x 24.51 cm)
- **Keyboard tray size:** 8.75" x 18.5"
(22.22 x 46.99 cm)
- **Storage profile:** <9.5" (86.36 or 121.92 cm)
34" or 48" track options (86.36 or 121.92 cm)

Tandem Arm™ & Slim Line

Wall Mounted Workstations

The Tandem Arm and Slim Line redefine wall-mounted workstations. With dual arms that move in tandem, the Tandem Arm provides superior stability and range of motion; while the work surface facilitates med preparation and supply accessibility. The Slim Line provides a compact solution for discreet computer access and is easily adjusted for sitting or standing use.

- Dual pivot points on the Tandem Arm maximize rotational range of motion
- Generous 21.5" w x 11" d work surface with spill retaining lip
- Task light with auto shut-off illuminates the work surface for nighttime use
- Position height adjustment facilitates sit to stand interaction
- Locked position height adjustability ensures stability and eliminates movement
- Trim-line profile when stored

Lighted Worksurface

Task light with auto shut-off illuminates the work surface for nighttime use

- Maximum footprint: 34"h x 25.16"w x 4.125"d (86.36 x 63.9 x 10.48 cm)
- Monitor adjusts for viewing from multiple directions

Wall Cabinet Workstations

The Wall Cabinet Workstation is designed to provide maximum aesthetic flexibility and best-in-class performance. Innovative features, advanced keyless entry system, and exceptional serviceability make the Wall Cabinet the easy choice for demanding clinical environments.

- Special finishes provide an aesthetic look and feel
- Smooth surfaces, including PIN Code Lock membrane, are easy to clean for improved infection control
- Dedicated cable management channels conceal cables
- Auto on / off task light to reduce visual strain and for nighttime use
- Keyboard drawer extension with integrated wrist rest reduces strain
- Slim profile of under 4" when stowed

Electronic Lift

Available 15" of height adjustment for sit to stand interaction (430 only)

Proximity Sensor

Detects when clinician has walked away and automatically closes the workstation (430 only)

Work Surface

Generous work surface features dedicated pen and mouse storage

CareLink™ Fetal Monitoring Cart

The CareLink™ Fetal Monitoring cart provides both fetal monitoring and a mobile workstation in a single solution. Your choice of medical monitoring system promotes workflow efficiency in labor and delivery departments.

Features

- Dual-swivel monitor mount supports up to 22" monitors
- Stable open shelf supports and secures a variety of Fetal Monitoring systems
- N-Sight™ fleet management for remote asset management
- N-Stride™ steering control for effortless maneuverability and control
- Expansive work surface
- Height adjustable with electronic lift

Phlebotomy Cart

Configure Trio or M38e as a flexible, mobile Phlebotomy workstation that keeps all of your blood draw supplies close at hand, and enables you to easily transport them throughout the facility. Multiple bin sizes and divider options provide ample storage and smart organization of phlebotomy supplies.

Features

- Large work surface with raised edges and expandable surface feature
- Configurable to meet workflow needs
- Simple electronic height adjustment
- Slim profile for tight care settings and ease of mobility
- Ergonomic adjustments, easy maneuverability
- Increased runtime for improved uptime performance

Registration Cart

Configure Trio or M38e for a flexible, mobile workstation that enables you to move easily from one patient room to another. Both platforms feature a large work surface, with a slide out extension for additional work space. Multiple drawer and bin options provide ample storage and smart organization of supplies. Choose from an array of accessories to best accommodate your choice of printers, scanners and electronic signature pads.

Features

- Large work surface with rear utility bins and expandable surface feature
- Configurable with scanner mounts and printer shelves to meet patient registration workflow needs
- Choose from manual or electronic height adjustment
- Slim profile for tight care settings and ease of mobility

Telepresence Cart

Equip the Trio or M38e workstation to enable video communication and enhance telehealth workflow with real-time consultation, connecting doctors with remote patients in real time, increasing access and timeliness to care.

Features

- Optional mounts for video or web camera above the monitor
- Optional I/O Pod for integrating peripherals
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- Large work area with expandable surface feature

CareLink™ Telepresence Cart

The CareLink Telepresence cart is equipped to enable video communication to enhance your workflow with real-time consultations. This innovative telehealth workstation accommodates your choice of video conferencing technology enabling doctors and clinicians to connect with their patients.

Features

- Optional I/O Pod for integrating peripherals
- Optional mounts for video or web camera above the monitor
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- On-board communication tools for messaging and service requests
- N-Sight™ fleet management for remote asset management

CareLink™ Telemedicine Cart

The CareLink Telemedicine Cart is designed to enable video communication and the use of diagnostic peripherals facilitating virtual care and timely diagnostics. CareLink connects doctors to remote patients in real time, increasing the access and timeliness to care.

Features

- Offers I/O Pod plug-n-play capabilities to integrate medical peripheral cameras and scopes
- Ventilated storage cabinet for housing PCs or Codecs
- Optional storage drawer for diagnostic peripherals
- Optional mounts for video or web camera above the monitor
- Supports single or dual monitor configurations
- On-board communication tools for messaging and service requests
- N-Sight™ fleet management for remote asset management
